VISION'R VJ Festival 2012 is about VJ singularities, non-individualistic ones, built & positioned.

Post disciplinar non art, VJ performance adds embodied representation and stage presence with screened pictures : singular virtualities, material and immaterial, live potential realities and live powerful imagination, in situ shared.

Vision'R is a collaborative VJ Festival from VJ France web forum, to exchange intensities and knowledge.
<http://vjfrance.com>

So Vision'R is the mirror of the actual live stages for video performances, about what moves the limits and about best projects.

As each year, after an open call to proposals for AV performances, workshops, lectures, presentations, ..., Vision'R is from the heart of a living art !

LPM

Live Performers Meeting
ROME : MAY 31 TO JUNE 3
MEXICO IN NOVEMBRE

LPM 2012 maintains the spirit of a meeting, which has been its main characteristic since the first edition. It is conceived to be a place for comparison and exchange of information and ideas among vjs, visual artists, live-video performers and passionates. Experimentation is one of the founding elements of its philosophy. Similarity of ideals and common roots has prompted LPM to join the AVit network, whose aim is to improve and promote the culture of VJing events worldwide.

After the earliest festivals in England, the Avit network expanded throughout the world, establishing collaborations as C23 in Germany (AVIT Berlin), Vision'r in France (AVIT France) and LPM in Italy. This partnership is possible thanks to a common cultural background and a strong affinity of spirit and purposes.

LPM is not a festival, it is an opportunity of meeting other artists and learn about diverse artistic practices, get new contacts, develop brand new collaborations.
